“Home” Po: Gauribidanur Chikkaballapur Dist, Karnataka, India 574225

SUMMARY

Highly motivated and fast learner with a strong foundation in cybersecurity principles leveraging my technical skills and passion for information security. Eager to contribute to a team environment and gain practical experience in protecting critical systems and data..

EDUCATION

| | | |
|--|--------------|----------------|
| B.E - Computer Science Engineering IOT & Cyber Security with Blockchain Technology, <i>Mangalore Institute of Technology & Engineering</i> | 2021-Present | CGPA:7.53 |
| Senior Secondary (Diploma) – MS Ramaiah Institute of Technology, Bengaluru | 2019-2021 | CGPA:6.9 |
| Secondary School (SSLC) – BGS School, Gauribidanur | 2018-2019 | Percentage:77% |

SKILLS

| | |
|------------------|--|
| Languages | : C, Java, HTML, CSS, Networking, Linux |
| Database | : SQL |
| Tools | : MYSQL, Nmap, Burp Suite, Wireshark, SQLmap |

INTERNSHIP

ERSEGMENT | Penetration Tester October 2021 - March 2022
Technologies : Linux, BurpSuite, SQLmap, ZENmap, Nmap, Monitoring Tools.
Conducted penetration testing on Multiple Web Applications to identify and exploit vulnerabilities.

Asian School of Cyber Laws | Survey/Intern November 2021 – December 2021
Methodologies : phishing simulations, social engineering techniques
Conducted cybersecurity survey among college students. Analyzed findings to develop and deliver workshops on threat prevention and mitigation. Improved students' cyber resilience.

Indian Tech-Keys | WebApp Development May 2022 – June 2022
Demonstrated problem-solving and critical thinking during in-plant training. Successfully developed and debugged web applications for various platforms.

Cross-Identity Plus | Cyber Security/Intern November 2023 – December 2023
Gained in-depth knowledge of IAM, network security, and penetration testing. Conducted vulnerability assessments using Nmap, SQLmap, and other tools. Explored Okta integration for identity management solutions.

PROJECTS

Smart Mirror | Group of 4 May 2021 – August 2021
Technologies : AngularJS, Hyperledger Fabric, Hyperledger Composer, Docker, NodeJS.
A smart mirror refers to a type of mirror that has a feature. It consists of a two way mirror with a screen positioned behind it. This screen has the ability to showcase widgets providing the viewer with useful information such, as weather updates, current time and date and the latest news.

COURSES & WORKSHOPS

- Cybersecurity and Ethical Hacking Workshop 29/7/2024-31/7/2024
- **Cyber Security**, ERsegment Solutions Pvt Ltd 10/2021 – 03/2022
- **Cyber Security Awareness Training**, Amazon 10/2021 – 11/2021
- **BUG BOUNTY Hunting with Burpsuite**, Udemy 11/2021 – 12/2021

ACHIEVEMENTS & ACTIVITIES

- Participated in CTF(Capture the Flag) conducted by Dept Of ISE,MITE, 2023.

HOBBIES

- Reading Books, Graphic Designing
